

Practical Loss Control Leadership

Who should participate?

Health & Safety Committee Members
Health & Safety Representatives & Professionals
Health & Safety Supervisors

Course Format:

Home Study package. The text book consists of 17 chapters which have a multiply choice test to go along with each of the chapters. You may use your book when doing the test and upon completion send them into the NSSC to be marked.

Course Objectives:

This program is relevant to anyone interested in the field of Occupational Health & Safety. This self-study course helps participants improve the efficiency, effectiveness and overall profitability of their organization. Colleges and universities use the PLCL text as a fully accredited course text for modern Safety/Loss Control Management classes.

Course Outline:

- The modern evolution of management
- The causes and effects of loss
- Management control of loss
- Accident/Incident investigation
- Incident recall
- Planned inspection
- Job/task analysis
- Off the job safety and family loss
- Employee training
- Problem solving
- Managing the troubled employee
- Personal communication
